30" width size sheets must be ordered in even multiples.

*Panolam Cutting Policy:
 • Panolam will cut a minimum of 1 sheet up to a maximum 10 sheets of larger sized panels to create non-stocked sizes to complete an order.
 • For orders for over 10 sheets of non-stocked sizes, Panolam reserves the right to submit the order for production.
 • Unless otherwise noted, there no additional charge for cuts (some exceptions apply).
 • Unless otherwise noted for certain styles, products ordered in 30" widths will be cut from 60" sheets and must be ordered in increments of 2.

ThruColor™ HPL

ThruColor™ HPL is a color-through laminate that provides continuous color even on the edges of a finished product. Using a patented process, ThruColor™ HPL laminate provides design flexibility to use the edge of a product to enhance its overall appearance. Its patented polyester treated core allows for the most flexible solid color product in the industry.

ThruColor™ HPL provides numerous design features, such as the ability to create a seamless design and over 200 color options in a variety of finishes. Unlimited design capabilities eliminate the dark edge.

- Available in solid, abstract and woodgrain patterns.
- Ideal for application where a solid color edge is desired.
- Finish Options: All HPL finishes are available except Armored Protection® (ARP).
- Available in chemical resistant surface up to 1" thickness.
- ThruColor™ HPL cannot be postformed.

Due to its unique composition, ThruColor™ HPL will vary in color from corresponding colors of standard HPL. Sample evaluation is recommended.
