# ThruColor™ HPL

ThruColor™ HPL is a color-through laminate that provides continuous color even on the edges of a finished product. Using a patented process, ThruColor™ HPL laminate provides design flexibility to use the edge of a product to enhance its overall appearance. Its patented polyester treated core allows for the most flexible solid color product in the industry.

ThruColor™ HPL provides numerous design features, such as the ability to create a seamless design and over 200 Pionite color options in a variety of finishes. Unlimited design capabilities eliminate the dark edge.

- Available in solid, abstract and woodgrain patterns. (minimums may apply for non-stocked SKUs)
- Ideal for application where a solid color edge is desired.
- Finish Options: All HPL finishes are available except Armored Protection® (ARP).
- Available in chemical resistant surface up to 1" thickness.
- ThruColor™ HPL cannot be postformed.

Due to its unique composition, ThruColor™ HPL will vary in color from corresponding colors of standard HPL. Sample evaluation is recommended.

## Made to Order (MTO) Guidelines

A made-to-order item is any item for which the pattern, grade, size, and/or finish is not designated as stock or as otherwise available elsewhere in this stocking guide. Made-to-order items are sold with the following guidelines, in addition to those listed in the “Terms of Sale”.

- A minimum order of 5 press-size sheets (10 sheets for ThruColor™ HPL) is required per line item, unless otherwise stated.
- Orders cannot be cancelled after 24 hours from order entry.
- Orders cannot be returned.
- Unless otherwise stated, 30” widths must be ordered in quantities of 2.
