	MM	MODERN MATTE*	Velvet touch, fingerprint resistant, ultra matte	1.5										

Coordinating HPL finish options represent a close match to the standard TFL finish option, but are not an exact match. Additional restrictions apply on sheet size, core material, and order minimums.

Inspira™ Digital finish availability is dictated by substrate on which graphic is used, i.e., HPL, FRL®, Thicklam™, etc.

*Gloss units are nominal and may vary from HPL based on core material and manufacturing process
